Portland ConnectED

Portland ConnectED is a community-wide initiative working to build and sustain a citywide culture dedicated to supporting highly effective education for Portland’s youth, families, and the community.

Starting Strong

Starting Strong is Portland’s Campaign for Grade Level Reading under the umbrella of Portland ConnectED. We aim to achieve grade level reading by (1) improving school readiness, (2) improving attendance, and (3) reducing summer learning loss. Portland is Starting Strong with Ready Children, Families, Schools, and Community.

KINDERGARTEN SKILLS INVENTORY
READY TO LEARN
Attendance is a habit that starts early! Good attendance in the early years, even PreK, can help your child build fundamental math and reading skills and develop a habit of good attendance that can lead him or her to success in college and future careers.

A child missing 10% of school, just 18 days a year, can decrease his or her chances of academic success.

64% of children who attended kindergarten and 1st grade regularly can read at grade level by the 3rd grade compared to only 17% of children who missed 18 days or more of school in both kindergarten and 1st grade.

September is Attendance Awareness Month! Learn more about the ways we can increase school attendance at awareness www.attendanceworks.org.

KINDERGARTEN ISN’T FINGER-PAINTING ANYMORE
Kindergarten has changed from when you were little. The things that they taught in first grade thirty years ago (the alphabet, simple math, how to tell time) are now taught in kindergarten.

That means that all the things that you learned how to do in kindergarten when you were little, your children have to know how to do before they ever get to kindergarten.

IT’S NEVER TOO EARLY TO GET YOUR CHILD READY FOR KINDERGARTEN.
